TWC CO-SPONSORS 2013 EXXONMOBIL TEXAS SCIENCE AND ENGINEERING FAIR

More than 1,100 Texas middle and high school students will display their outstanding projects at the 2013 ExxonMobil Texas Science and Engineering Fair. The Texas Workforce Commission (TWC) continues its commitment to the success of tomorrow's workforce by co-sponsoring the event for the 12th consecutive year. The fair, which is being hosted by the University of Texas at San Antonio (UTSA), begins on Tuesday, March 26 and culminates with an awards presentation on Friday, March 29 at the Henry B. Gonzalez Convention Center in San Antonio.

"Each year we are excited to see the ingenuity of these amazing students and are proud to lend our support for this prestigious event," said TWC Chairman Andres Alcantar who will address the students at the awards ceremony. "This fair encourages students to pursue science, technology, engineering and math (STEM) endeavors that help them acquire high demand skills."

Dr. Edwin Barea-Rodriguez, a professor and chair of the UTSA Department of Biology, will deliver the keynote address to the students at Friday's awards presentation which will run from 8:30 to 11:30 a.m.

Dr. Barea-Rodriguez was one of 40 educators nationwide selected as a Vision and Change Leadership Fellow for the Partnership for Undergraduate Life Sciences Education. The fellows are charged with identifying ways to improve undergraduate life sciences education.

The ExxonMobil Texas Science and Engineering Fair is officially sanctioned by the Society for Science & the Public, the annual host of the Intel International Science and Engineering Fair (ISEF). Awards will be presented to students in 17 project categories in each of two divisions.

Winners from the ExxonMobil science fair's senior division will qualify for the Intel ISEF competition in Phoenix in May and will also earn a spot at the Texas Governor's Science and Technology Champions Academy, a weeklong residential summer camp, also sponsored by TWC, which will be held this summer at South Texas College in McAllen.

Fair entries will be on display in Exhibit Hall-B of the convention center and will be judged throughout the day on Thursday, March 28. More information about the ExxonMobil Texas Science and Engineering Fair is available online at www.emtsef.org.

REP. FARENTHOLD URGES FAA TO RECONSIDER CLOSURE OF SMALLER AIRPORT TRAFFIC CONTROL TOWERS

Today, U.S. Representative Blake Farenthold (TX-27), sent a letter to Federal Aviation Administration head Michael Huerta questioning the agency’s plan to close air traffic control towers in smaller, local airports as a result of sequestration cuts.

In the letter, Congressman Farenthold said he was deeply troubled by the proposed actions of the FAA regarding smaller airports, like the one in Victoria, Texas, as they have long played a vital role in local economies across the country.

“A closure of the air traffic control tower at Victoria Regional Airport will have a negative economic impact on the city of Victoria, Texas and the surrounding region. Having a non-viable commercial carrier and the loss of private/charter aircraft service to the regional airport will negatively impact businesses, business travelers, dealers, customers, and the Victoria community.

“As I continue to work with our local officials and the business community to find solutions to your agency’s failure to propose rational solutions to minimize the effect of these cuts on the aviation infrastructure and the traveling public, I request you provide the total annual costs required to operate the Contract Tower at Victoria Regional Airport.”

Springtime is upon us. You are invited to take a stroll in the bluebonnets, find an arrowhead or observe wildlife while touring fine properties with live water and big time views.
